Eligible for Mid-career Training Allowance*

$300 - $3000/Monthly

**Training allowance is available for Singaporeans above 40 through the SkillsFuture Midcareer Training Allowance.*

Overview

What Is the Cloud Support & DevOps programme?

This programme is a *SkillsFuture Career Transition Programme,* by ***Generation Singapore in partnership with Temasek Polytechnic and Microsoft.*** It aims to train individuals who aspire to career transition into the growing tech sector as Cloud Support & DevOps professionals.

During training, learners will develop **technical skills to build, deploy, and manage cloud-based applications** alongside the behavioural skills and mindsets (BSMs) to thrive in cloud support teams and to build a meaningful career.

Graduates will receive job placement support including interviews and job placement assistance, with the **goal of securing an entry/mid level tech role within six months of graduation.**

Through this program, you'll learn:

- Python programming fundamentals and scripting.
- Linux essentials, DevOps practices, and automation using Git, Docker, Ansible, and Terraform.
- Cloud fundamentals aligned to Microsoft Azure, with cloud-agnostic exposure to AWS and Google Cloud.
- Introduction to cybersecurity, including account security, networking basics, encryption, and vulnerability awareness.

Who should apply:

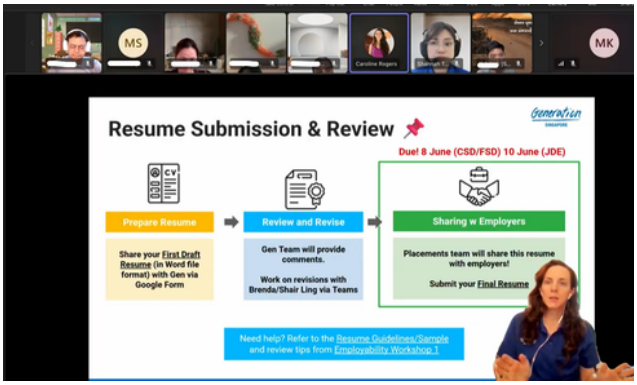
- Singapore Citizens, Permanent Residents, and LTVP+ aged 21 and over
- Early/mid-career job seekers with minimal coding or cloud experience aiming to land a tech role
- Mid-career professionals with some coding knowledge looking to switch to Cloud roles
- Enjoys solving problems, fixing things, and improving systems so everything runs smoothly.

Career Pathways Include :

- ***Cloud Support Associate***
- ***DevOps Technician***
- ***Cloud Operations Engineer***

Course Structure

The programme is a ***full-time 12 week bootcamp*** that combines ***technical training, professional skills,*** and ***employment essentials.*** These are delivered through ***hands-on projects*** and ***real-world industry scenarios*** to prepare and grow your portfolio for your future opportunities.



Online Training on Microsoft Teams

Temasek Polytechnic East Wing Block 1A

Duration	**3 months Training + 6 Months Job Placement Support**
Mode of Delivery	**ONLINE** **Monday - Friday (9am - 5pm)**

Withdrawals after payment may incur a penalty unless a valid reason is provided, in line with SSG SCTP terms and conditions (e.g. employment secured, caregiving responsibilities, or medical reasons).

Job Placement Support

GenReady Job Fair & Confirmed Job Interviews

The programme's main goal is to **support graduates in securing meaningful employment** after completing training.

GenReady Day begins the six-month placement journey with **confirmed interviews across multiple employers**, creating early access to real hiring opportunities.

Our Tech Graduates at the GenReady Job Fair

Dedicated Job Placement Specialist

Throughout the six months, graduates lead their own job search while receiving **personalised support from a dedicated Job Placement Specialist.**

This support includes CV development, interview preparation, and job-search strategies. They will help you identify your strengths and work collaboratively to address your weaknesses, ensuring you stand out to hiring managers.

Job Coaching & Matching with Employer Partners

Graduates have the option to receive job coaching and/or counseling to enhance their soft skills and tackle the challenges that often accompany job searching.

Generation Singapore will also do matching to suitable openings through Generation's employer network to support a successful transition into a new role.

81% Job Placement Rate*

** % of Tech Graduates from CSD, JDE & FSD who have attained a job within 180 days of graduating.*
